**Hard Shell Case**

Features die cut cavities for both Frame Hammer® tools and plenty of space for your tips  
#25125

**Heavy Nylon Tool Bags**

With interior pockets  
#25120 | 38"  
#25121 | 52"

New "D-Head" shape on the Frame Hammer's tip connector prevents specially designed "D Head" tips from rotating on the tool. Now you can precisely control the tips angle and placement when reaching across the frame

- "O" Insertion Hole
- "D" Insertion Hole

Hammers and Chisels are History

# Slide Sledge FRAME HAMMER

**THE ULTIMATE TOOL FOR  
AUTO BODY REPAIR**

# Slide Sledge FRAME HAMMER

**Replaces hammer and chisel**

**Delivers extreme force more accurately and more safely**

The Slide Sledge Frame Hammer is the most precise and sophisticated high-impact delivery system ever developed. The encapsulated drive bar along with "application-specific" tips allows you to deliver high-impact force with pinpoint accuracy for the most complete auto body repair tool available today.

# Get More Buck For Your Bang!

- Increases efficiency, productivity and profit
- Makes collision repairs faster and easier
- Effortlessly delivers up to 18 pounds of sledge hammer force
- Virtually eliminates the need for a hammer and chisel

### Increased Productivity

- Allows you to complete jobs up to 80% faster
- Greatly reduces and in many cases eliminates R&I time
- Multiple tips engineered to create new and faster ways to accomplish previously difficult jobs
- Gets vehicles on and off the frame rack quicker

### Focused Power

- Effortlessly delivers up to **18 pounds** of sledge hammer force
- Linear design versus arcing motion of swinging a hammer focuses the power to a precise point for maximum power transfer
- Extremely efficient impact from each blow makes "bang time" faster with less effort

### Versatile

- Interchangeable, application specific tips and extensions allow one tool to do the job of many
- Easily reaches into tight spots, access ports and across the frame to previously inaccessible areas

### Eliminates Secondary Damage

- Linear design allows you to concentrate on the work area, not swinging a hammer at a chisel
- Never misses its mark so you won't have secondary damage to repair **ON YOUR OWN TIME**

### Safer and More Comfortable

- No more pounding with a sledge hammer, stinging or smashing hands
- No more contortionist acts to reach those hard to get to places, the tool does the work for you
- Eliminates vibration, sore muscles and hand cramps

*The Slide Sledge® Frame Hammer® gave us cleaner jobs, no secondary damage and quicker on and off time on our frame machines. Southeast Auto Body was named the 2002 National Collision Business of the Year for highest dollar per square foot of all shops in our category. We could not have achieved this without the Frame Hammer®.*

**—Ken Stafford, President, Southeast Auto Body**
